

Comprehensive Injury Care
Auto, Sports, Personal Injury

For the Safety of Our Patients and Staff

At Crespo & Associates, the safety and wellness of our patients and staff is a top priority. As such, we are closely monitoring and following all updates and guidance provided by the Centers for Disease Control (CDC) regarding the Coronavirus (COVID-19).

According to advice from the CDC, we will be implementing the following strategies:

- Actively encourage any sick patients and staff to stay home
- Any patients traveling by air, we will postpone your appointments until there has been a 2-week period since your last flight
- If you are experiencing a fever over 100.4, or have a cough or difficulty breathing, we will postpone your appointment until these symptoms have cleared

We remind you and your families to practice all preventative measures used during regular Flu Season including hand washing, covering coughs and sneezes and avoiding sharing any items such as pens, computers, phones, cups, utensils, etc.

As always, we are committed to providing an excellent experience for both our patients and staff, which includes great communication. We will be in touch as any relevant additional updates or guidance that becomes available from the CDC or other authorities.

Sincerely
The Crespo & Associates Team
